Summary

Front-End Developer experienced in building modern web applications using React and TypeScript. Strong focus on clean architecture, authentication flows, API integration, and responsive UI development. Seeking remote opportunities in international teams.

Skills

- JavaScript (ES6+), TypeScript, React
- HTML5, CSS3, Tailwind CSS, React Router
- Context API, REST APIs, Supabase
- Git, GitHub, Vercel

Projects

Task Manager SaaS — React, TypeScript, Supabase

Built a SaaS-style task management application with authentication, protected routes, and full CRUD functionality. Deployed on Vercel.

Mg-ars Store — React, Tailwind

Developed an e-commerce SPA with global state management and dynamic cart functionality.

Weather App — React, API Integration

Implemented third-party API consumption with dynamic data rendering.

Experience

Freelance Front-End Developer (2022 – Present)

Developed personal and freelance web applications using modern frontend technologies.

Education

Master in JavaScript and TypeScript — Udemy (2020)

Technical High School Degree in Systems

Languages

Spanish (Native) | English (Intermediate)
